

# Bixy Arita K 1

## Bixy Arita K 1

**Description :** Bixy Arita K 1 is Tri- Polymer system, 55 % Solid content , medium viscosity and solvent free.

**Composition :** Tri-polymers base , component dispersion of Super- polymers resin and Special Chemicals additives.

**USE :** Suitable for mortar cement , broke building and old & new Blocks etc.

**Preparation of surface :** The surface should be free from grease and dust, Very heavily oxidized surfaces should be cleaned.

**Application :** By mix with cement bag only use Clean tools.

**Color Range :** medium grey.

**Coverage :** Depending on the surface of the substrate  
2.50-3.00 kg of Bixy Arita K 1 per cement bag.

**UV Resistance :** very good.

**Water Resistance :** Excellent after drying.

**Exterior Durability :** Excellent.

**Characteristics: Viscosity:** 1690– 1860 C.P at 24°C

**Drying time :** Set to touch 5-7 hours, Completely Dry  
after 12 hours

It can test after 72 hours.

**Storage :** To be stored for 12 months on 33°C .

**Packing :** Bixy Arita K 1 is supplied in 12 Lt. - 5 Lt - 4 Lt.

**Types of Product :** Bixy Arita K 1 , Matt.
